

California ISO

Extended Day Ahead Market
Working Group 2 Weekly Report

Week 7 Report
2/14/22 – 2/18/22

Progress Tracker

Topic	Schedule
Transmission Availability	
Definition of “buckets”	Jan 6 – Feb 22
Types of transmission made available	Jan 11- Mar 10
Transmission overlap or RSE	Jan 11- Feb 17
Third party reserved transmission	Jan 11- Mar 10
How unused transmission can be made available	Jan 11- Mar 3
Utilization of transmission internal EDAM entity network	Jan 11- Mar 3
Timing and Duration	
Timing and duration transmission is made available	Feb 1-17
Transmission Unavailability	
Consequences if available in EDAM but not in RT	Feb 3- Mar 3
Reliability or cost allocation concerns	Feb 3-17
Compensation	
Compensation of transmission made available	Feb 3-22
Congestion Rent Allocation	
Congestion rent allocated between BAAs	Feb 3-Mar 3
Distribution of congestion rent from BAA to LSE/customers	Feb 3-Mar 3
External Resource Participation	
Facilitation of Intertie bidding/external resource participation	Feb 24 – Mar 1

Proposed Specific Discussion Topics Coming Up:

2/22: EDAM – Bucket 2 Transfers and Legacy Agreement Timing and Roles

2/24 and 3/1: Intertie Bidding, including discussion of costs, revenue sharing and process

3/3: Use of CAISO Transmission and Internal EDAM Entity Transmission

Weekly Discussion

February 15

Scope Items Discussed: EDAM Transmission – Bucket 1 and 3 Transfers

Presenters: Milos Bosanac – CAISO

Discussion:

The objective of this meeting was to continue the discussion on EDAM transmission transfers that are bucket 1 and bucket 3. Milos Bosanac from the CAISO shared several examples of transfer transmission rights for bucket 1 and 3. Examples include EDAM BAA to EDAM BAA as well as non-EDAM BAA imports and exports to EDAM BAA.

Milos's presentation covered EDAM transfer transmission rights for bucket 1 and bucket 3 transmission. The presentation is posted on the EDAM working group #2 webpage. There was discussion around the following topics:

- Bucket 1 transmission characteristics
- Bucket 1 transfers between EDAM entity areas
- No bucket 1 transmission between EDAM entity and non-EDAM areas
- Bucket 1 transmission examples

Stakeholders had the opportunity to ask Milos clarifying questions as well as questions regarding the design characteristics around bucket 1 transfers. There were several questions on which buckets unused OATT transmission products would fall under. The response was it would depend on the situation and more examples to explore more scenarios will be included in the discussion of Bucket 2.

Conclusion

Milos was able to get through bucket 1 transmission examples, and will continue next meeting with bucket 3 transmission examples.

February 17

Scope Items Discussed: EDAM Transmission – Bucket 1 and 3 Transfers

Presenters: Milos Bosanac – CAISO

Discussion:

The objective of this meeting was to continue the discussion on EDAM transmission transfers in bucket 1 and bucket 3. Milos started with a recap on bucket 1 transfers and answered any remaining questions, then started the discussion on bucket 3 transfers.

Milos's presentation covered EDAM transfer transmission rights for bucket 1 and bucket 3 transmission. The presentation is posted on the EDAM working group #2 webpage. There was discussion around the following topics:

- Bucket 3 transmission characteristics
- Bucket 3 transmission between EDAM areas

- No bucket 3 transmission between EDAM areas and non-EDAM areas
- Bucket 3 transmission examples
- Making bucket 3 transmission available to market if it was not used in EDAM

Stakeholders had the opportunity to ask Milos clarifying questions as well as questions regarding the design characteristics around bucket 3 transfers. Milos covered some of the sources of transmission that fall into bucket 3.

Conclusion:

Milos was able to recap bucket 1, and walk stakeholders through bucket 3 examples. Next week the discussion on bucket 2 will continue.
